

## Rubber Parts and Components

## **Shock Absorber Buffers**

Unigom shock absorber buffers, mounted on the stem, allow to absorb the energy released during the s

## **Sleeves**

Sleeves for air, water, oil and fuel passage. Unigom sleeves are made of rubber and can withstand a ten

## Brake and Clutch Tubes

Unigom offers a full range of brake and clutch tubes to ensure maximum reliability. The brake hoses are

## Caps

Steering box caps, constant velocity caps, axle shaft caps, constant-velocity joint caps Kits

Caps are essential for security and reliability of the car. Protect, in fact, the delicate gears of the gearbox

## Engine Mounts

Engine mounts, anti vibration mounts.

Unigom engine mounts do so that the pleasure and comfort of driving to take the place of noise and vibration

## Shock Mounts

Unigom rubber brackets offer a quality that is guaranteed throughout the period of use with the same level

## Silent Block

Used for vibration dampening on the moving parts, silent blocks allow for precise, simple and fast, cable

## Transmission Couplings

A wide range of rubber and rubber-metal transmission couplings for various applications help da

## Hydraulic Drive and Oil Cooling Tubes

Unigom offers a complete range of rubber hoses for hydraulic drive and offering products designed for high

## Drive Shaft Pulleys

The drive shaft pulley (torsional vibration damper or mass damper) is a

## Alternator Pulleys

High quality alternator pulleys in a wide range of alternator pulleys covers

## Silencer Brackets

Unigom silencer brackets are ideal for dynamic applications, due to their high strength.

**Specialty axles, clutches, wide-angle gears, low-rep-rate overall applications.**

**EPDM is a thermoplastic elastomer. It is a manufacturer of components and wiring accessories: nylon cable ties 6.6, etc.**

**Thermostat Flanges** satisfy most requirements with a good cost/features ration, and good resistance to corrosion.

**Mid-range engine components: pistons, connecting rods, valves, and flanges for Diesel engines, etc.**
